INSTALLATION INSTRUCTIONS

This flow kit is designed to allow you to convert your Assault nozzle to a different flow rate. The conversion instructions must be followed in order to assure the Assault achieves the flow indicated on the baffle.

IMPORTANT - Each nozzle has a color coded metal flow spacer under the baffle head, and may have one or more plastic adjustment shims. The plastic adjustment shims must be used with the new colored metal flow spacer.

1. Remove the screw that secures the baffle head. Caution: Be careful not to lose flow spacer and adjustment shim.
2. Remove the old flow spacer and replace with the new flow spacer.
   For 4820
   a. For 125 gpm @ 100 psi replace the yellow spacer with the black spacer.
   b. For 95 gpm @ 100 psi replace the yellow spacer with the red spacer.
   For 4826
   a. For 250 gpm @ 100 psi replace the black spacer with the green spacer.
   b. For 200 gpm @ 100 psi replace the black spacer with the silver spacer.
3. Take the plastic adjustment shim from the original baffle assembly and place it between the new baffle head and the new flow spacer.
4. Install the new baffle assembly onto your Assault nozzle. Be sure the screw is securely hand tightened.
5. Install the appropriate flow/psi label over the old label
6. Flow test the nozzle to be sure it is operating properly.

If any problems are encountered or questions arise, contact Akron Brass Customer Service at (800) 228-1161.
WARRANTY AND DISCLAIMER: We warrant Akron Brass products for a period of five (5) years after purchase against defects in materials or workmanship. Akron Brass will repair or replace product which fails to satisfy this warranty. Repair or replacement shall be at the discretion of Akron Brass. Products must be promptly returned to Akron Brass for warranty service.
