METAL TURBINE TEETH CONVERSION KIT
INSTALLATION INSTRUCTIONS

DISASSEMBLY OF CURRENT TURBINE TEETH
1. Remove Cap Screws (1).
2. Place a flat bladed screw driver between the Bumper and Turbine Retaining Ring (2) and pry it off.
3. Remove the current Turbine Teeth (3) and Turbine Retaining Ring (2) and discard.

ASSEMBLY OF METAL TURBINE TEETH
1. Place the new metal Turbine Teeth (3) onto the Pattern Sleeve.
2. Insert the Polymer Bearing (4) into the new Turbine Retaining Ring (2).
3. Align the screw holes in the Turbine Retaining Ring with the screw holes in the Pattern Sleeve and push it into place.
4. Install the Cap Screws (1).
5. Test the nozzle in the fog setting to be sure the Turbine Teeth spin freely.
WARRANTY AND DISCLAIMER: We warrant Akron Brass products for a period of five (5) years after purchase against defects in materials or workmanship. Akron Brass will repair or replace products which fail to satisfy this warranty. Repair or replacement shall be at the discretion of Akron Brass. Products must be promptly returned to Akron Brass for warranty service. We will not be responsible for: wear and tear; any improper installation, use, maintenance or storage; negligence of the owner or user; repair or modification after delivery; damage; failure to follow our instructions or recommendations; or anything else beyond our control. WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE INCLUDED IN THIS WARRANTY STATEMENT, AND WE DISCLAIM ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. Further, we will not be responsible for any consequential, incidental or indirect damages (including, but not limited to, any loss of profits) from any cause whatsoever. No person has authority to change this warranty.
