Baffle Replacement Instructions
for the Style 3293 FireFox™ Nozzle

DISASSEMBLY

1. Move the electric nozzle into the full fog position.

2. Remove the current baffle assembly by unscrewing it from the nozzle using a 5/32" Allen wrench.

   Note: Any plastic shims, which are located between the baffle stem and the nozzle, should be removed.

REASSEMBLE

Note: Add the appropriate shims to the baffle assembly to get the desired flow. Each nozzle should be tested to see if the added shims achieve the desired flow.

1. Once the desired flow is reached, add a small amount of Loctite 277 or equivalent to the threads of the new baffle assembly.

2. Install the new baffle assembly into the nozzle using a 5/32" Allen wrench.

3. Test nozzle for full movement and desired flow.
WARRANTY AND DISCLAIMER. We warrant Akron Brass products for a period of five (5) years after purchase against defects in materials or workmanship. Akron Brass will repair or replace product which fails to satisfy this warranty. Repair or replacement shall be at the discretion of Akron Brass. Products must be promptly returned to Akron Brass for warranty service.

We will not be responsible for: wear and tear; any improper installation, use, maintenance or storage; negligence of the owner or user; repair or modification after delivery; damage; failure to follow our instructions or recommendations; or anything else beyond our control. WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE INCLUDED IN THIS WARRANTY STATEMENT, AND WE DISCLAIM ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. Further, we will not be responsible for any consequential, incidental or indirect damages (including, but not limited to, any loss of profits) from any cause whatsoever. No person has authority to change this warranty.
