OPERATING INSTRUCTIONS
PIERCING APPLICATOR STYLE 1088

The following is intended to provide the basic instructions for operating a piercing applicator.

PRODUCT WARNINGS
- Maximum operating pressure 200 psi/13.8 bar.
- A separate ball shutoff should be used with the applicator. A section of hose at least 3 feet long or longer must be installed between the shutoff and the applicator to avoid damage, or breakage to the ball bearing groove of the swivel connection.
- Eye protection must be worn during operation.

GENERAL INSTRUCTIONS
- Do not exceed
  - 1 course of cinderblock
  - 2 courses of brick
  - 3/4” thick plywood
  - 1/16” thick steel plate
- Do not use as a prybar or lever
- The applicator’s flow is rated at 125 GPM at 100 psi.
- For trained firefighters’ use ONLY.
- For use with water or standard fire fighting foams ONLY.
- Charge all lines slowly to facilitate a controlled water pressure buildup during start-up.
- Not recommended for use with salt water.
- After use with foam, flush with fresh water.
- The applicator is configured for optimum performance. Do not alter in any manner.
- Have enough firefighters on the line to safely control the applicator.
- Ensure the applicator is properly matched to your Eductor.

OPERATING GUIDELINES
- Connect the supply line.
- Hold the applicator perpendicular to the surface, with the piercing tip against the surface.
- With a small hand held sledge or equivalent, strike the drive button squarely until the applicator has pierced the surface. Keep hands clear of striking surface.
- Open and close shutoff slowly.

MAINTENANCE
- Your applicator should be inspected prior and after each use, to ensure it is in good operating condition. Some conditions to check for include:
  - Broken or cracked welds
  - Clogged spray holes
  - Dull or chipped piercing tip
  - Bent or kinked tube
  - Worn threads on the swivel
  - Water leaks
  - Damage at the connection between the applicator and swivel.

If any of the above conditions are encountered, the applicator should be taken out of service and repaired, plus tested by a qualified technician, prior to placing it back into service.
WARRANTY AND DISCLAIMER: We warrant Akron Brass products for a period of five (5) years after purchase against defects in materials or workmanship. Akron Brass will repair or replace product which fails to satisfy this warranty. Repair or replacement shall be at the discretion of Akron Brass. Products must be promptly returned to Akron Brass for warranty service.

We will not be responsible for: wear and tear; any improper installation; use, maintenance or storage; negligence of the owner or user; repair or modification after delivery; damage; failure to follow our instructions or recommendations; or anything else beyond our control. WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE INCLUDED IN THIS WARRANTY STATEMENT, AND WE DISCLAIM ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. Further, we will not be responsible for any consequential, incidental or indirect damages (including, but not limited to, any loss of profits) from any cause whatsoever. No person has authority to change this warranty.
