APOLLO SI PORTABLE MONITOR ROTATION STOP
FOR STYLE 3414 & 3416 MONITORS
INSTALLATION INSTRUCTIONS

The following is intended to provide instructions for the installation of the horizontal positive stop bracket for styles 3414 & 3416 Apollo SI monitors. The stop bracket is required to insure 90° left and 90° right positive stops during use in the SI ground base.

⚠️ Warning: Failure to install the rotation stop may lead to an unsafe operating condition where instability may arise.

Note: This is not for use with the 3431 or 3433 Apollo Hi-Riser monitors.

INSTALLATION

1. Locate the bolt holes on the bottom of the monitor gooseneck, item 30 in the parts list.
2. Place the stop bracket over the two holes and align.
3. Tighten the two $\frac{5}{16}$ - 18 x 1” stainless steel socket head cap screws into the threaded holes.
WARRANTY AND DISCLAIMER: We warrant Akron Brass products for a period of five (5) years after purchase against defects in materials or workmanship. Akron Brass will repair or replace product which fails to satisfy this warranty. Repair or replacement shall be at the discretion of Akron Brass. Products must be promptly returned to Akron Brass for warranty service.

We will not be responsible for: wear and tear; any improper installation, use, maintenance or storage; negligence of the owner or user; repair or modification after delivery; damage; failure to follow our instructions or recommendations; or anything else beyond our control. WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE INCLUDED IN THIS WARRANTY STATEMENT, AND WE DISCLAIM ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. Further, we will not be responsible for any consequential, incidental or indirect damages (including, but not limited to, any loss of profits) from any cause whatsoever. No person has authority to change this warranty.
