STYLE 3529 4-WAY MONITOR MANIFOLD
INSTALLATION INSTRUCTIONS

INSTRUCTIONS

Use only 3/4”, Grade 5 or better bolts when attaching the 4-Way Monitor Manifold to the inlet pipe flange.

Use only 5/8”, Grade 5 or better bolts when attaching a monitor or valve to the outlet of the 4-Way Monitor Manifold.

Always use flange gaskets, DO NOT use liquid sealers between flanges.

WARNING: Do Not operate at pressures over 200 psi or flows above 1500 gpm.

WARNING: Do Not install riser pipes between the outlet of the 4-Way Monitor Manifold and the inlet of a fixed site monitor.
