**Forestry Multi-Purpose Monitor 300 GPM (1140 LPM)**

The 3462 provides an extremely rugged durable design ideal for a multitude of applications with flows up to 300 gpm (1140 lpm). This compact monitor features a fully sealed integrated electrical control system with waterproof locking connectors for all motors, power and control connections to withstand harsh environments. The high speed motors provide proportional speed control for pinpoint stream positioning and accuracy. With a wide range of available nozzles, the 3462 is ideal for use in water, foam and CAFS applications.

**Standard Features:**
- CAN proportional speed joystick control
- Lightweight Pyrolite® construction, 23 lbs. (10.4 kg) without nozzle
- Integrated and sealed electronics
- Waterproof (IP 67 rated) locking connectors
- Simple “plug and play” installation
- 320° maximum rotation range with stops at +/- 90°
- 135° maximum elevation range with stops at +45° and -20°
- 12V or 24V (Must Specify)

**Nozzle Options:**
- Style 3293 low flow adjustable electric fog nozzle with flush
  30-60-95-125 gpm (115-230-360-475 lpm)
- Style 3293 mid flow adjustable electric fog nozzle
  125-175-250-300 gpm (475-660-950-1140 lpm)
- Style 3293 fixed orifice fog nozzles
  (must specify flow and pressure)
- Quick Attack™ foam tube attachments
  for Style 3293 fog nozzles
- Smooth bore tips

**Additional Options:**
- 2” quick disconnect
- Wireless remote control (CAN interface)
- 2” electric valve
- Flat disperse fog pattern available on all Style 3293 nozzles

**Wireless Remote Control Available**

FireFox™ Multi-Purpose Monitor  500 GPM (1900 LPM)

The FireFox Electric Monitor from Akron®, is a technologically advanced remote controlled monitor with flows up to 500 gpm (1900 lpm). The FireFox Monitor is designed to meet various water, foam, CAFS, and dry chemical needs. This versatile monitor can be used for wildland firefighting, mini pumpers, crash truck turrets, deicing, fixed site facilities, arena protection and many other unique applications.

3463  FireFox Electric Monitor
• 320° horizontal travel with adjustable stops at +/- 90°
• 135° vertical travel (+90° to −45°) with adjustable stops at +45° and −20°

Monitor Options: (Must specify)
• Automatic Oscillation & Stow
• Remote 2” or 2 1/2” Electric Valve
• 12 or 24 volt (Must specify)
• 2” Quick disconnect
• Position feedback - Optional

Nozzle Options:
• See page 170 for Monitor/Fog Nozzle Compatibility Chart
• Adjustable or Single Fixed Flow Baffle up to 500 gpm (1900 lpm)
• Dry Chemical Nozzle - Optional
• Foam Tubes - Optional (See page 33)
• Smooth bore tip with mini shaper

NOTE: All FireFox Fog Nozzles are available with optional flat dispersed pattern

Gemini™ Monitor 1000 GPM (3800 LPM)
The Gemini Monitor is of Pyrolite® construction with a compact split waterway designed with cast-in turning vanes. Providing high performance and exceptional durability.

3479 Electric Gemini Monitor
- 135° vertical travel and 348° horizontal travel, both with adjustable stops
- Manual override
- 12 or 24 volt (24 volt version CE approved - Must specify)
- Wireless remote control available
- See page 170 for Monitor/Fog Nozzle Compatibility Chart

**DeckMaster™ Monitor 1250 GPM (4800 LPM)**

The DeckMaster Monitor is a technologically advanced, electrically controlled deck monitor with automated elevating capability. The unique design of the DeckMaster Monitor allows electric elevation and positioning 24" above the base of the flange for operation over obstructions with the push of a switch.

3440 DeckMaster Electric Monitor
- 340° horizontal rotation with adjustable stops
- Vertical travel 90° above to 45° below horizontal
- Manual override for horizontal, vertical and elevation control
- Stow position set easily by the end user
- Automatic drain for freeze protection
- Diagnostic light for trouble-shooting
- Connection for deployed indicator light
- Available in 12 or 24 volt (Must specify)
- Optional position feedback (Must specify)
- See page 170 for Monitor/Fog Nozzle Compatibility Chart

**Electric Riser**

Overcome increased heights of apparatus bodies, raised roof cabs, and other obstacles with the electric riser. It enables an added 12 inches (305 mm) of extension and is the perfect complement to the already superior versatility of the DeckMaster, StreamMaster and other compatible monitors.

3406 Electric Riser For DeckMaster & StreamMaster
- 3" waterway
- 12" extension
- With unique three-piece design, the extremely compact device is only 18 1/2" (470 mm) when nested
- Can be utilized within pump modules that have limited space
- Electrically actuated (12 or 24 volt - Must specify)
- Durable lightweight Pyrolite® construction
- Manual override
- 5 year warranty
- Inlet option: 3" (75 mm) Victaulic or NPT (Must specify)
- Outlet options 3" (75 mm) or 4" (100 mm) flange (Must specify)

* For 3482 ** For 3480

Combine with the Style 1578 SaberMaster nozzle to meet NFPA 1901 recommendations to use remote control monitors for safe deck gun operations.

Remote DeckMaster operation eliminates the need to have a firefighter on the deck to operate the monitor.

Wireless Remote Control Available

DeckMaster available with position feedback and position indicator option
StreamMaster™ II Monitor
With its patented design, the StreamMaster II provides efficient flows up to 2000 gpm (7600 lpm) in a compact configuration. The unique waterway design provides balanced forces on the outlet and reduced friction resulting in exceptional stream performance. The standard absolute position sensors provide advanced features like programmable obstacle avoidance, oscillation, and stow/deploy positions. The onboard, fully sealed IP 67 CAN control system features “plug and play” installation with built-in wireless capability and a USB port for quick software updates in the field. The 355 degree rotation and 165 degree elevation range can be configured for deck or aerial applications making this high performance compact monitor truly universal.

3482 StreamMaster II Monitor 1250 gpm (4800 lpm)
- Compact industry leading operating envelope (6”, 152 mm)
- Lightweight Pyrolite construction
- Simple “plug and play” installation
- Integrated wireless compatibility, utilizing the optional 3600 hand-held remote control
- Optional manual override hand-wheels
- Absolute position sensors
- Waterproof (IP 67 rated) control system with locking connectors
- User programmable obstacle avoidance
- User programmable stow and deploy positions
- Superior range of motion
  - Rotation Range 355°
  - Elevation Range +120° - 45°
- 12V or 24V operation
- Compatible with 3406 Electric Riser
- Ladder avoidance mode - Optional

Trident™ HFRT-10 High Flow Monitor 2650 GPM (10,000 LPM)

The Trident HFRT-10 High Flow Firefighting Monitor is the pinnacle water delivery system for fire fighting in the world. This monitor is a culmination of years of industry leading experience and unmatched engineering that has resulted in superior performance and reliability. The Trident's revolutionary look and high tech functionality will deliver up to 2650 gpm (10,000 lpm) of water and/or foam solutions in excess of 395' (120 m), rotates 355° horizontally, and exceeds all your expectations.

3356 Trident HFRT-10
- Manual handwheel override
- Flow: 350-2650 gpm (1325-10,000 lpm)
- Horizontal rotation up to 355°
- Vertical travel from +70° & -30°
- Outlet: 3.5” NH (89 mm)
- Position feedback
- 12V & 24V
- Compatible with Electric MasterStream Nozzles

Inlet Options:
- Bottom 4” Flange 150 lb (DN 100)
- Rear 4” Flange 150 lb (DN 100)
- Rear 4” and 5” Victaulic Flange (100 mm and 125 mm)

Options:
- Style 2489 solid bore tip with 395' (120 m) reach capability
- Style 3624 1700 gpm at 230 psi Foam Tube with Reach up to 305' (93 m)
- Style 5178 Akromatic 2000 gpm Fog nozzle with 300 feet (91 m) reach capability
- Variable Speed Joystick
- Wireless Remote Control
- Dry Chemical Piggy Back
- Inside Cab Manual Overrides with 6’ Cable
- Integrated Dual Flow Fog Nozzles and Foam Tubes

AeroMaster12® Monitor 3000 GPM (12000 LPM)

The AeroMaster12 incorporates a waterway that is both velocity and pressure balanced. With this innovation, this monitor provides a smooth operation through its 35° rotational range and 190° (+120°/-70°) of vertical travel. Additionally, a friction loss of less than 1.4 bar (25 psi) at 12,000 lpm (3,000 gpm) is achieved. The standard absolute position sensors provide advanced features like programmable obstacle avoidance, oscillation, and stow/deploy positions. The onboard, fully sealed IP 67 CAN based monitor control system features simple “plug and play” installation with built-in wireless capability and a USB port for quick software updates in the field.

**3000 AeroMaster12 Monitor**
- Compact low profile design
- Lightweight Pyrolite construction
- Pressure and velocity balanced for faster speeds and longer life cycle
- CAN multiplexed controls provide simple “plug and play” installation
- Integrated wireless compatibility, utilizing the optional 3600 hand held remote control
- Waterproof (IP 67 rated) electronic control system with locking connectors
- User programmable obstacle avoidance, stow and deploy positions, soft stops, and auto oscillation
- Superior range of motion
  - Rotation range 35°
  - Elevation range 190° (+120° to -70°)
- Proportional speed control
- Manual override handwheel controls
  (only spin when engaged in manual operation)
- Optional 12V or 24V operation
- Optional Point-Aim Joystick
- Optional patent pending Style 730 Quick-Attack field detachable foam tube
- Optional patent pending flat dispersed ring on fog nozzle

**Akromatic 3000 Nozzle with Optional Foam Tube**

The Style 3700 is a 6,000 to 12,000 lpm (1,500 - 3,170 gpm) automatic nozzle with reach capabilities up to 125 m (410'). With a 4.5" inlet, this nozzle is designed as the perfect match to the Aeromaster12 monitor. The Style 3700 is available with an optional flat disperse pattern ring providing outstanding ground coverage of 46 m (152') wide and maintains in cab operator visibility when used in roof mounted applications. To maximize foam expansion and drain time, just add the field detachable Style 730 Quick-Attack foam tube. The combination of the flat dispersed pattern and the detachable foam tube is patent pending. This flat dispersed pattern ring allows the dispersion jaws to be moved from the end of the foam tube to the front of the foam tube. The result is a lighter foam tube with less moving parts.

**3700 Akromatic 3000 Nozzle with Optional Foam Tube**
- Lightweight Pyrolite construction
- Automatic flow ranges from 6000 - 12,000 lpm (1,500 - 3,000 gpm)
- Nozzle calibrated at 10 bar at the monitor inlet
- Optional flat dispersed ring on the fog nozzle
- Optional Style 730 Quick-Attack Detachable Foam Tube
- Optional 12V or 24V operation
Renegade™ Electric Monitor 5000 GPM (19,000 LPM)
The Renegade electric monitor is a large flow master stream appliance designed specifically for industrial pumpers, aerials, or fixed site applications. This unique monitor combines an all-electric control package with a compact design to provide superior performance and easy installation.

3580 Renegade Electric Monitor
- Lightweight Pyrolite® construction less than 200 lbs. including the nozzle
- Low friction loss only 27 psi at 5000 gpm
- Nozzles incorporate new stream shaper for improved stream performance
- Advanced features: position feedback, automatic stow, low current draw and more
- Additional features: manual overrides, drain port, multiple outlet positions and more
- Optional position indicator (Must specify)
- See page 170 for Monitor/Fog Nozzle Compatibility Chart

### Style 3446 MercuryMaster 1000™ 1000 GPM (3800 LPM)

The MercuryMaster 1000 is the smallest and lightest of all 1000 gpm monitors in the firefighting industry. This monitor will save valuable time at the fire scene with quick deployment and conserves precious space on the fire truck with its compact size.

- Rated flow up to 1000 gpm (3800 lpm)
- Rotation ± 20°
- Elevation 30° to 60°
- Unmanned use
- Low friction loss
- Pressure gauge
- Available less Stream Shaper for CAFS applications

Ozzie™ 911 Oscillating Monitor 350 GPM (1325 LPM)
The Akron® Ozzie 911 Oscillating Monitor has a powerful sweeping water stream for high performance attack and protection. Its unique water driven motor sweeps the outlet back and forth in a smooth, wave-like motion to provide cooling and protection while unmanned. The Ozzie Oscillating Monitor operates by itself to provide greater flexibility by protecting exposures while personnel work elsewhere. The Ozzie 911 Oscillating Monitor is suited for haz-mat situations, protecting exposures, and attacking fires.

911 Ozzie Oscillating Monitor
- Adjustable sweeping range 30° either side of center
- Vertical travel from 35° to 90° above horizontal
- On/Off knob can stop oscillation at any point
- Built-in pressure gauge
- See page 171 for Monitor/Fog Nozzle Compatibility Chart

Ozzie™ Master 922 Oscillating Monitor 1250 GPM (4800 LPM)
The Akron® Ozzie Master 922 Oscillating Monitor has a powerful sweeping water stream for high performance attack and protection. Its’ unique water-driven motor sweeps the outlet back and forth in a smooth, wave-like motion to provide cooling and protection while unmanned. The Ozzie Master Oscillating Monitor operates by itself to provide greater flexibility by protecting exposures while personnel work elsewhere. Ozzie Oscillating Monitors are suited for haz-mat situations, protecting exposures, and attacking fires.

922 OzzieMaster™ Oscillating Monitor
An Ozzie Liftoff designed for use with an Apollo™ Single or Dual Inlet Ground Base, See page 55

- Adjustable sweeping range 25° either side of center
- Vertical travel from 45° to 90° above horizontal
- On/Off knob can stop oscillation at any point
- Built-in pressure gauge
- See page 171 for Monitor/Fog Nozzle Compatibility Chart

NOTE: A direct mount flange allows the OzzieMaster Oscillating Monitor to be used as a deck monitor.
## Municipal Portable and Truck Monitors

**Apollo™ Monitor 1250 GPM (4800 LPM)**

Akron® Apollo Monitors offer a variety of models with features to fit the ever increasing demands of the fire service with a durable, dependable and stable monitor.

- 360° rotation when mounted in the deck mode, 180° in the portable mode
- Vertical travel from 90° above to 15° below horizontal, with built-in 35° safety stop
- 3″ waterway with cast-in turning vanes for efficient flow
- Direct mount - a combination 3″ NPT female and 3″ flange
- Carbide spikes for extended wear (Spike covers optional)
- Also available as portable only or deck mount only - must specify
- See page 171 for Monitor/Fog Nozzle Compatibility Chart

### Style 3414 Apollo Single Inlet Portable Monitor
- Includes a ground base and liftoff

### Style 3416 Apollo Single Inlet Portable and Deck Monitor
- Includes a ground base, liftoff and direct mount

### Style 3421 Apollo Dual Inlet Portable Monitor
- Includes a ground base and liftoff

### Style 3423 Apollo Dual Inlet Portable and Deck Monitor
- Includes a ground base, liftoff and direct mount

### Style 3423
- Shown with Style 3488 Discharge Pipe & Style 2499 Quad Stacked Tips

### Style 3416
- Shown with Style 5160 Akromatic® Master Stream Nozzle

**NOTE:** Available in deck only configurations - Must specify

Municipal Portable and Truck Monitors

Apollo PE™ Monitor 1250 GPM (4800 LPM)
The Style 3419 Apollo PE (Portable Electric) has flow capabilities of 1250 gpm (4800 lpm) with a self-contained battery and electronic control system. The Apollo PE offers motorized rotation, elevation, and nozzle pattern control. Programmable oscillation from 0-180 degrees in portable mode, 0-355 degrees in truck mode and RF wireless remote control are key features that allow for operation from safe distances using less manpower in fire or Haz-Mat situations. This robust monitor also features a smart ground mode configuration system which automatically positions the monitor for ground base installation. A quick change battery system allows for extended run times and is compatible with 12 or 24 volt systems.

- Flow capabilities of 1250 gpm (4800 lpm)
- Completely sealed, waterproof connectors
- Programmable oscillation
- Integrated and sealed electronics
- RF wireless control
- 12V or 24V compatible in one unit
- Quick change rechargeable battery system for truck and portable applications
- Simple “plug and play” installation
- Uses standard Apollo ground bases

Additional Options:
- Style 6035 - CAN proportional speed joystick
- Style 6041 - CAN panel mount control station
- Style 6045 - Spare battery with storage/charging bracket
- Style 3419 – Direct mount with elevation stop interlock

Nozzle Options:
- Style 5177 Akromatic 1250
- Style 2499 quad stacked tips, with 3485 mini shaper
- Style 2498 triple stacked tips, with 3485 mini shaper

Apollo Hi-Riser™ Monitors 1250 GPM (4800 LPM)

The Apollo Hi-Riser includes the outstanding features of the standard Apollo along with the added benefit of rising over obstacles on top of the apparatus. To elevate the Apollo Hi-Riser, simply pull a pin and raise the discharge 24” above the deck. Also, the Apollo Hi-Riser rotates easily down to a low profile position for portable operation and comes complete with an automatic drain valve.

### Apollo Hi-Riser Single Inlet Portable and Deck Monitor
- Includes single inlet ground base, liftoff and direct mount
- Available in deck only configurations - Must specify

### Apollo Hi-Riser Dual Inlet Portable and Deck Monitor
- Includes a dual inlet ground base, liftoff and direct mount

### Apollo Base Mounts
#### 3503 Apollo Top Mount
- Easily mounts the Apollo on top of a vehicle for deck gun operation or storage on a vertical surface
- Size: 22” x 15 1/4”, weight: 7 1/8 lbs.

#### 3505 Mount for Apollo Ground Base
- Conveniently store the Apollo ground base with folding legs in a standard apparatus compartment
- Length: 10”, thickness: 2 1/2”, weight: 1 1/4 lbs.

** Stowed position, measured from base of flange to top of lift off, elevation elbo extends 2” (50 mm) below flange base
**GP Manual Monitor 1000 GPM (3800 LPM)**

The GP Manual Monitor is one of the most cost effective, highest performing firefighting monitors found worldwide. This monitor's rugged, lightweight design was engineered using some of the world's most advanced computer aided design and testing technology, resulting in performance seen by no other 1000 gpm (3800 lpm) monitor today. Once you grab the dual handled controls, you will know you are using the most highly maneuverable, easiest operating, most versatile fire service monitor in the world.

### 3430 GP Manual Monitor
- Rated flow up to 1000 gpm (3800 lpm)
- Rotation Continuous 360°
- Elevation +90° to -45°
- Cast-in turning vanes & integrated removable stream shaper for maximum reach and stream performance
- Built-in pressure gauge
- "T" handle manual control provides precise, easy positioning and control
- Compact, efficient design requires minimum mounting space
- See page 170 for Monitor/Fog Nozzle Compatibility Chart

### Gemini™ Monitor 1000 GPM (3800 LPM)

The Gemini Monitor is of Pyrolite® construction with a compact split waterway designed with cast-in turning vanes providing performance and exceptional durability.

### 3470 Handwheel Gemini Monitor
- 360° continuous horizontal rotation
- Self-locking handwheel for horizontal and vertical travel
- Built-in pressure gauge with gauge guard
- See page 170 for Monitor/Fog Nozzle Compatibility Chart
**Ladder Pipes 750/1000 GPM (3000/3800 LPM)**

The Akron® Ladder Pipe offers a lightweight, compact design for unpiped ladder trucks.

**1495 Ladder Pipe 1000 GPM (3800 LPM)**
- New easy adjustable mounting clamp with safety pins for more secure mounting
- Horizontal lock permits 15° sweep either side of center
- Removable control handle adjusts to 12 positions
- Lightweight extruded aluminum discharge pipe with full-length stream shaping fins
- 200 ft. ³/₄" No. 1 Grade pure manila rope
- Adjustable mounting clamps for round rung ladders, square clamps available - Must Specify
- Optional 14950007 Mounting fixture - Must Specify

**StreamMaster™ II Manual Monitors 1250/2000 GPM (4800/7600 LPM)**

The StreamMaster II manual monitor is taking monitor design technology to the next level. Included in its patented design is a unique waterway construction capable of flows from 250 gpm (950 lpm) up to 1250 gpm (4800 lpm). For the 3483 or 500-2000 gpm (1900-7600 lpm) for the 3481. This waterway provides balanced forces on the outlet and reduced friction loss resulting in exceptional stream performance over this wide-range of flows in a small compact package. This dual handwheel controlled monitor is suited for large flow needs in fire apparatus and fixed site installations.

- Compact industry leading operating envelope (10.5", 266.7 mm)
- Easy handwheel operation of both horizontal and vertical travel
- Rotational Range: 355°
- Elevation 45° below to 90° above horizontal
- See page 170 for Monitor/Fog Nozzle Compatibility Chart

Industrial Electric Monitors
Corrosion resistant monitors with maximum travel for optimal coverage in industrial, mining and marine environments.

**Severe-Duty Monitor 750 GPM (2900 LPM)**

The Severe-Duty, multi-purpose monitor is designed to withstand continuous operation while mounted on heavy-duty equipment like off-road fire, construction, mining, or landfill vehicles. Dusty, dirty, outdoor, and continuous vibration applications are what this Akron Brass severe-duty monitor is designed to survive. The Severe-Duty monitor is excellent for fixed site non-classified wash down or fire protection.

### 3491 Severe-Duty Electric Monitor
- 12/24 volt motor (Must specify)
- Stainless construction
- Auto Oscillation
- 320° rotation
- 155° elevation (+90°, -65°)
- Fast travel, 20°/sec
- Pressures up to 200 psi
- 2 1/2" waterway (65 mm)
- Reaches 200’ at 750 gpm
- See page 171 for Monitor/Fog Nozzle Compatibility Chart

Conquest™ Electric Remote Controlled Monitor System

2000 GPM (7600 LPM)

The Conquest Electric Remote Controlled Monitor System was designed as a small compact unit with exceptional performance and value. This system is ideal for use in industrial fire suppression, vapor mitigation, and other fixed site applications.

3678 Conquest Electric Monitor System

- Brass construction for use in severe environments
- Efficient flows up to 2000 gpm (7600 lpm) through a 4” waterway
- FM approved for NEC Class 1, Div 2, Groups C & D hazardous locations
- ATEX approved for Zone 1, 2, 21, & 22 hazardous locations
- Electric motors with current limiting and dynamic braking
- Fixed or automatic baffle nozzles
- Manual overrides
- Custom Engineered to your specification (Available)

### Friction Loss vs Flow Graph

- Friction Loss in psi
- Flow in GPM
- Graph shows the relationship between friction loss and flow rate for the Conquest Electric Monitor System.
Storm™ Electric Programmable Monitor System  2000 GPM (7600LPM)

The Storm Electric Programmable Monitor System provides a superior fog curtain and excellent straight stream reach coupled with precision nozzle positioning. This Storm System is designed for industrial fire suppression, vapor mitigation and other harsh environment applications.

3698 Storm Electric Programmable Monitor System
- Brass construction for use in severe environments
- High efficient flows up to 2000 gpm (7600 lpm) through a 5” waterway
- Hazardous environment ratings
- Fully programmable for automated positioning with gas detectors or PLCs
- Precision servo motors and programmable drives for high accuracy positioning
- Fixed or automatic baffle nozzle with wide angle fog pattern for vapor mitigation
- Manual overrides
- Custom Engineered to your specification (Available)
**Industrial Monitor Systems**

**Genesis™ Hydraulic Monitor Systems 1250 GPM (4800 LPM)**
- Brass or Pyrolite® construction
- Continuous 360° horizontal rotation
- High, efficient flows up to 1250 gpm (4800 lpm) through a 3’ (75 mm) waterway
- Fixed or automatic baffle nozzles:
  - Style 5056 Automatic, Styles 2156, 2158

**3590 Genesis Hydraulic Manual Monitor System**
- Stand alone or manual override for electric HPU
- Designed as a replacement for chains and pulleys with hand pump operation

**Typical Remote Controlled Monitor System**

- **NOZZLE**
  - Storm™ Nozzles: Styles 5079, 2179
  - Conquest™ Nozzles: Styles 5098, 2198, 5097, 2197
  - Genesis™ Nozzles: Styles 5056, 2156, 2158

- **TUBING OR CABLING**
  - Akron specified customer supplied electrical cables or rigid hydraulic tubing

- **CONTROL PANEL**
  - Standard or custom master control panels: 120/240 VAC or 24 VDC
  - Customer specified controls or standard with joystick and pushbuttons

- **ELECTRIC JUNCTION BOX**
  - Electric Junction Box (standard on electric remote controlled systems)

- **DRIVE SYSTEM**
  - Style 3698 Storm Motor Drive Box with intelligent Motor Drives: 108/240 VAC, 50/60 Hz
  - Style 3678 Conquest 120 VAC Motor Drive Box: 120/240 VAC, 50/60 Hz
  - Style 3590 Genesis Manual Hydraulic Power Unit and Pump

- **MONITOR**
  - Style 3698 Storm Monitor
  - Style 3678 Conquest Monitor
  - Style 3595/3590 Genesis Monitor

Manual Elevated Monitor 750 GPM (2900 LPM)

Akron Brass’ Manual Elevated Monitor is ideal for industrial fixed site applications. Its’ unique design features the most compact, simple and efficient elevated monitor without compromising the superior performance you’ve come to expect from Akron Brass products.

3530 Manual Elevated Monitor
- Corrosion resistance materials used throughout
- Heights – 10, 15 and 20 feet (3, 4.5 and 6 m)
- Flow rate – up to 750 GPM (2400 LPM)
- Rotation and elevation – Locking handle at the base of the tower
- Rotation: 360°
- Elevation: 40° (±20° Horizon)
- Nozzle pattern adjustment – cables at the base of the tower
- Optimized nozzle design
  - Excellent reach: 235 feet (72 m) at 750 GPM (2900 LPM)
  - Trouble free pattern actuation
  - Integral stream shaper
- Maintenance free rotation joint design

Tank Wash Down System 500 GPM (1900 LPM)
Akron Brass tank cleaning systems offer a wide range of solutions to improve productivity and reduce equipment down time. Automated tank washing operations often use remote-controlled monitors with programmable controls to quickly and thoroughly clean interior surfaces in railroad tank cars. Monitors may require special materials and seals to withstand various tank contents and washing solutions.

3493 Tank Wash Down System
- Stainless Steel, 2.0” diameter waterway
- Flows up to 500 gpm (1900 lpm)
- Severe duty joints
- Programmable – servo motor controlled
- Custom control panels and programs
- Virtually eliminates confined space concerns

Large Vehicle And Heavy Equipment Washing 750 GPM (2900 LPM)
Akron’s line of heavy-duty vehicle washing water cannons are ideal for routine cleaning of road construction equipment and large on road trucks. Reduce time normally required by current washing methods from hours to minutes with Style 3493 water cannon.

3493 Large Vehicle And Heavy Equipment Washing
- Stainless steel, 2.5” diameter waterway
- Flows up to 750 gpm (2900 lpm)
- Severe duty joints
- Simple joystick or fully programmable – servo motor controlled
- Custom control panels and programs
Crowd Control System

500 GPM (1900 LPM)

The style 3563 is a technologically advanced remote controlled water cannon with features to meet the demands necessary for emergency crowd control. The 3563 can provide continuous flows up to 500 gpm or a pulsing stream up to 200 gpm using the optional high speed pulse-stream valve and joystick. The UII control system provides proportional speed control to the rotation and elevation motors for quick, precise targeting.

3563 Crowd Control Truck Water Cannon

- Emergency crowd control
- Quick response
- Proven technology
- Easy to install and maintain
- Optional programmable pulse - Stream Jet
- Faster target acquisition
- Adjustable control system
- 320° Rotation
- 135° Elevation (+45° to -90°)
- Programmable pulse - Stream Jet options
- Position feedback standard (Display optional)

Optional high speed valve provides pulses between 1/2 second - 2 1/2 seconds in length or can be used in continuous mode.
## Hydrant Mount 1200 GPM (4500 LPM)

**2775 Hydrant Mount - Ground Legs**
- Hydrant Mount permits a fixed site monitor such as the Aries™ or Omega to be mounted to a 2 1/2” (65 mm) hydrant port.
- Height adjustment from the ground to center of the hydrant discharge is 17 1/2” (445 mm) to 28” (712 mm).
- Length: 9 1/2” from the swivel to the middle of flange.
- 2 1/2” swivel inlet.
- 3” (75 mm) or 4” (100 mm) flange outlet - Must specify.
- Weight: 41 lbs. (18.6 kg).
- Maximum operating pressure 100 psi (7 bar).
- Maximum flow 1200 gpm (4500 lpm).

## Oscillating Flange 1500 GPM (5700 LPM)

The Style 3531 Oscillating Flange has been designed, engineered, and tested to protect some of the world’s most valuable assets. Its unique maintenance-free polymer bearing design, high quality material construction and superior performance make it the ideal choice for a long-term, low service solution for protecting your hazardous and harsh environments. The Style 3531 is capable of flows to 1500 gpm at an oscillation range up to 165° and is compatible with most Akron Brass manual monitors.

**3531 Oscillating Flange**
- Maintenance-free polymer bearing (no ball bearings).
- Totally water powered (no electrical connections).
- Heavy-duty low friction loss brass waterway.
- Stainless steel water drive turbine for long life performance.
- Oscillation range: 30°, 60°, 90°, 120°, 140° and 165°.
- Adjustable oscillation speed: 0-40 deg. / second.
- Operating pressure: 50-250 psi (3 - 17 bar).
- Maximum flow and pressure: 1250 gpm (4800 lpm) @ 250 psi (17 bar) or 1500 gpm (5700 lpm) @ 180 psi (12.5 bar).
- Inlet & outlet: 4” 150# ASA flange.
- Weight: 127 lbs (58 kg).
- Integrated test port allows testing of the Oscillating Flange without discharging water from the monitor.

* When Used with FM Approved Monitor and Nozzle.

*Style 3531 Shown with Style 3528 Omega™ XP Monitor and Style 4461 Rampage™ Nozzle*
Style 3356
Shown with optional Dry Chemical Nozzle and Low Profile Rear Inlet
Akron® Roof Turrets offer greater reliability and superior performance when second best is not an option. Akron Turrets come in a variety of roof top designs and flows, either aspirated or non-aspirated, all with easy-to-use controls from inside the truck cab. Our Turrets offer joystick control and adjustable automatic oscillation.

Trident™ HFRT-10
This roof turret will deliver up to 2000 gpm (7600 lpm). To meet the demands of the industry, multiple control options and a variety of nozzle options are available. All units exceed NFPA 414 and FAA requirements.

3356 Trident HFRT-10
- Flow: 350-2000 gpm (1325-7600 lpm)
- Inlet pressure of 150 psi (10 bar) non-aspirated
  190 psi (13 bar) aspirated
- MAX inlet psi 250 psi (17 bar)
- Horizontal rotation up to 355°
- Vertical travel from +70° & -30°
- Inlet: 4" (100 mm) 150 lb flange (68 kg)
- Outlet: 3.5" NH (89mm)
- Proportional speed control
- One touch stow and deploy
- Obstacle avoidance
- Adjustable automatic oscillation
- Position feedback
- 12V or 24V (Must specify)
- Manual handwheel controls
- Works with Electric MasterStream
- Nozzles (standard outlet)
- Painted black finish
- Durable lightweight Pyrolite® construction
- Ull Control System

Optional Features:
- Integrated dual gallonage foam tubes & fog nozzles
- Cowling with lights
- Wireless remote control
- Dry chemical piggy back nozzle
- Inside the cab manual overrides
- Rear inlet (4" flange, 4"- 5" victaulic)
- Custom paint (red, white, lime yellow, black standard)

Electric Roof Turret

3353 Electric Roof Turret
- Flows from 250 to 1000 gpm (950 to 3800 lpm)
- 180° rotation & elevation travel
- 12 or 24 volt (Must Specify)
- 4" (100 mm) flange
- 2.5" (65 mm) outlet
- Position feedback
- Durable lightweight Pyrolite® construction
- Weight: 50 lbs (22.5 kg)
- Automatic drain valve for freeze protection
- Cast-in turning vanes for efficient flows
- Joystick or switch controller available

Electric Roof Turret

3354 Electric Roof Turret
- Flows from 250 to 1000 gpm (950 to 3800 lpm)
- 180° rotation & elevation travel
- 12 or 24 volt (Must Specify)
- 4" (100 mm) flange
- 2.5" (65 mm) outlet
- Position feedback
- Durable lightweight Pyrolite® construction
- Weight: 50 lbs (22.5 kg)
- Automatic drain valve for freeze protection
- Cast-in turning vanes for efficient flows
- Joystick or switch controller available
**FireFox™ Electric Remote Controlled Bumper Turret**

The FireFox, an all Electronic Monitor from Akron Brass, is a technologically advanced remote controlled single waterway monitor. The FireFox Monitor is designed to meet various water, foam, CAFS, and dry chemical needs. This versatile 500 GPM (1900 LPM) monitor can be used for ARFF vehicles and deicing applications.

**3463 FireFox Remote Controlled Monitor**

For more product information see page 41

---

**TuckAway™ Electric Bumper Turret**

**3352 Electric Bumper Turret**

- Flows from 250 to 1000 gpm (946 to 3800 lpm)
- Cast-in turning vanes for efficient flows
- Position feedback
- Durable, lightweight Pyrolite® construction

**Options**
- Accepts a large variety of nozzles
- Speed control
- Position indicator

*See Page 50 & 51 for Electric Monitor Accessories*
Ultra High Pressure  300 GPM (1140 LPM)
Akron Brass continues to lead in the forefront of firefighting technology with the introduction of the Ultra High Pressure line of products. This line of product is designed to operate at pressures up to 1500 psi and deliver ultra-fine water droplets at high velocity for increased heat absorption and rapid fire extinguishment. This technology enhances your firefighting capabilities by rapidly reducing the temperatures within an enclosed area, increases your positive pressure ventilation capacity, and dramatically reduces personnel fatigue while using two-thirds less water.

3450  Ultra High Pressure Bumper Monitor
In the new arena of ultra high pressure fire fighting, Akron Brass is introducing its Ultra High Pressure Bumper Monitor. This Monitor is capable of delivering up to 300 GPM at 1500 psi.

- Durable stainless steel & brass construction
- Flows up to 300 GPM at pressures up to 1500 psi
- Vertical Travel: +70° & -30°
- Horizontal Travel: 180°
- 12V & 24V (Must Specify)
- Position Feedback (Rotation only)
- Uses Universal II Monitor Control System, See page 50 & 51

Nozzle Options:

- Style 3292 Ultra High Pressure Nozzle Available for 60 gpm @ 1100 psi or 300 gpm @ 1250 psi
- Style 1417 Plain Tip w/ Style 3485 1 1/2” Mini Shaper
