

Ultra High Pressure Nozzle with Pistol Grip and without Teeth - DISCONTINUED

STYLE 4808

Discontinued effective January 2024

The Ultra High Pressure handline nozzle is designed to operate at pressures as high as 1500 psi. In addition, this nozzle handles these pressures with a bale shutoff that opens and closes with no more force than your standard firefighting nozzle. Contact Customer Service for available flows and pressures.

Features

Ultra High Pressure Nozzle Features

The Ultra High Pressure handline nozzle is designed to operate at pressures as high as 1500 psi. It is the perfect nozzle for delivering ultra-fine water droplets at high velocity. In addition, this nozzle handles these pressures with a bale shutoff that opens and closes with no more force than your standard firefighting nozzle. 4808 Ultra High Pressure Handline Nozzle:

- Swivel: 1" NH Inlet
- Length: 7.5"
- Weight: 3.2 lbs
- Available with set operating pressures of 600, 1100, 1200, 1400 & 1500psi
- Flow Range: 15-30 GPM (Contact Customer Service for available flows)

Applications/Solutions

- Mining
