

High Pressure Trigger Shutoff - DISCONTINUED

STYLE 0753

Discontinued effective January 2024

This high pressure shutoff is compact, lightweight, and easy-to-use. The ergonomically designed trigger shutoff automatically shuts off flow when released.

Tip not included. Shown with optional 4803 Assault tip.

Features

Designed for high pressure hydrostatic applications up to 700 psi (48 bar) hydrostatic pressure. For use with Turbojet® 1703 & 1711 and Assault 4803 tips.

- 1" (25 mm) swivel inlet x 1-1/2" (38 mm) male outlet
