Features

The 7x9 Diamondback LED Scene Lamp Head has a number of features that make these LED scene lights stand out:

- Instant-on lighting
- Patented Diamondback styling complements warning lamps
- Very high optical efficiency maximizes illumination with minimal power consumption
- High precision optical elements direct light onto work surfaces; integral "tilt-down"
- Efficient electronics reduce current draw and provide stable light intensity from 11-32VDC
- Better light output than 50W halogen at 1/2 the power
- High-Impact polycarbonate lens with anti-scratch hard coating
- Fully serviceable/upgradeable components
- Integral mounting pad
- Optional chrome bezel kit with mounting pad
- 5 year warranty
