Find a Weldon distributor near you to learn more about our emergency vehicle warning lights.

Features

Weldon's 3800, 4600, and 7800 series emergency vehicle warning lights are available in LED, Halogen or Strobe. The lens and reflector are sealed eliminating the problems of dust and moisture infiltration. All versions are available as a panel mount, or with a chrome trim flange. The LED versions contain a triple seal mating connector. The Halogen versions use an automotive style twist and lock socket that allows for easy, off-the-shelf bulb service.
