

Headlamp, 4 x6 Composite High Beam 65W

STYLE 4981-0100-00

These headlamp modules feature multi-faceted reflector technology providing a clean, stylized look for the vehicle. The headlamp module uses a replaceable halogen bulb for easy service. Featuring a glass lens and aluminum body providing years of service. The headlamp module replaces the standard 165mm x 100mm (4" x6") sealed beam headlamp. Note, please insure to allow adequate depth of 5" for this module. Headlamp modules are available in low and high beam configurations.

Features

4980 Series, 4"x 6" Halogen Headlamp Modules
