

Low Profile LED Dome Lamp, Recessed Mount

STYLE 8052

The 8052 Dome Lamp is the newest addition to Weldon's line of high quality interior dome lights. This ultra slim LED light features a low profile design with integrated cooling fins. Protruding less than 3/16" (4.8 mm) below the headliner, the 8052 series frees up valuable headroom space. The unique cast housing design improves cooling performance providing additional light, excellent lumen stability, and longer operational life. With an incredible 1,000 lumens, this unique lamp distributes light evenly and consistently throughout the entire working space.

The 8052 incorporates many features placing it at the top of its class. This lamp is engineered to illuminate the entire working area efficiently and consistently, giving the EMTs the exact light they need.

Features

- Wide beam angle for excellent illumination throughout the working area; including cot, floor, and compartments
- The low profile shape moves the LEDs closer to the lens surface for increased lighting of upper compartments
- High and low brightness or PWM operation to dim light from high setting
- Die cast housing with unique styled heat-sinking keeps LEDs running cooler which equals brighter and longer life
- Diffused lens for "soft" illuminated appearance
- Ultra low profile, flush mount design; minimum protrusion (3/16" or 4.8 mm) into working area
- Slim pan depth (11/16" or 17.5 mm) allows for more room to run wires, insulation, etc. in the headliner
- Rugged die cast aluminum construction; built-for-life
- 4100k color temperature for excellent rendering of skin tones
- When installed properly meets GSA-KKK and NFPA 1917 standards for illuminations
- Built on the same platform and a family product with the 8051 ultra-bright 1600 lumen dome light
- 5 year warranty

Applications/Solutions

- Bus & Pupil Transportation

Specifications

Style	8052	
Certification(s)		
Warranty		
Depth	.84 in (21.33 mm)	
Diameter	8.75 in (222.25 mm)	
Carton Quantity	20
